

BIXOLON MOBILE BLUETOOTH PRINTER INSTRUCTIONS

M3886-01

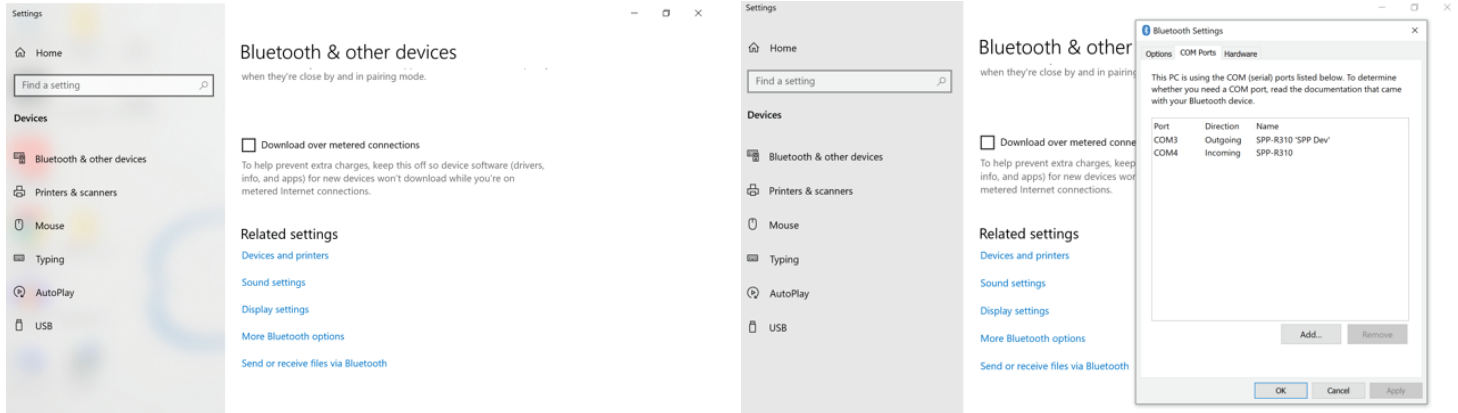

1. Open the Bluetooth settings on your PC/tablet.
Select Add a device.
2. Select Bluetooth. Select the SPP-R310.
3. Enter 0000 for the pairing pin.
- 4 The printer will now show as ready to go.
5. Under Bluetooth & other devices, select
“More Bluetooth options”.
6. Make a note of the outgoing port number. This
will be needed in the PAR POS setup.

Software Settings Editor for PAR POS:

1. From Administrator Portal, access Settings Editor by selecting Configuration>Settings Editor.
2. To access the printer setup dialog in Settings Editor, go to the Printers page and click the Add button.
3. If this is a new printer, you will need to enter the printer name and select the model Epson TM T88 before you can enter the COM port number.
4. Enter the printer COM port as noted in step 6 above.
